Fibbonachi Sequence Tests:

  Please enter which term in the sequence you hope to find: 0
  Number at term 0 is 0.

  Please enter which term in the sequence you hope to find: 1
  Number at term 1 is 1.

  Please enter which term in the sequence you hope to find: 30
  Number at term 30 is 832040.

Square Root Tests:

  Please enter the number whose square root you wish to estimate: 30
  Please enter an overestimate for the root: 5.5
  Please enter your desired tollerance/accuracy for the estimate: 0.001
  The suare root of 30 is approximately 5.47727.

  Please enter the number whose square root you wish to estimate: 2
  Please enter an overestimate for the root: 2
  Please enter your desired tollerance/accuracy for the estimate: 0.001
  The suare root of 2 is approximately 1.41422.

  Please enter the number whose square root you wish to estimate: 50
  Please enter an overestimate for the root: 7.2
  Please enter your desired tollerance/accuracy for the estimate: 0.001
  The suare root of 50 is approximately 7.07107.
